

2011 Deer Hunters

Assist Us With Our CWD Surveillance

As the disease continues to spread, the ongoing Chronic Wasting Disease Surveillance program for 2011 is targeting 26 wildlife management units (WMUs) indicated to the right.

Mandatory submission of all deer heads is **REQUIRED** from WMUs 102, 116, 118, 119, 124, 144, 148, 150, 151, 152, 162, 163, 164, 200, 202, 203, 232, 234, 236, 238, 254, 256, 258, 500, 728, and 730 for CWD testing.

Precise location of each kill is required, either GPS or Sec/Twp/Rng, in addition to the WMU.

Our **CWD-labelling system** provides a unique identification number for each head submitted. Heads should be kept frozen and dropped off at any Fish and Wildlife office or at any of the 24-hr freezers located in the following list. Check page 16 of the 2011 *Alberta Guide to Hunting Regulations* for office phone numbers. Call ahead to check office hours. Green CWD labels and instructions are available when you submit the deer head.

RESULTS:

All hunters are encouraged to visit albertarelm.com to view their CWD test results. When your results are available, a message appears when you log into AlbertaRELM. **Only those hunters NOT registered on AlbertaRELM will receive a letter delivered via Canada Post.**

For more information contact your local Fish and Wildlife office or Dr. Margo Pybus (780) 427-3462 – for toll-free, dial 310-0000 first or visit srd.alberta.ca/FishWildlife/WildlifeDiseases/.

Expanded deer hunting opportunities are available along the Alberta-Saskatchewan border to help reduce deer numbers. For details, contact your local Fish and Wildlife office or see page 68 in the 2011 *Alberta Guide to Hunting Regulations*.

Freezers are located at the following sites and identified with this symbol (★) on the map:
