

PROFESSIONAL TAXIDERMIST ASSOCIATION OF ALBERTA

The Professional Taxidermist Association of Alberta focuses on the positive public awareness of the taxidermy industry in the province and ensures that government law enforcement deal with these businesses the same way they would deal with other businesses in other industries.

In the past, various businesses were subject to an inspection of their premises. This inspection was more like a “raid” as squads of armed men in uniforms conducted the inspections. The Association is concerned with the public perception of these businesses when they see armed men enter the premises. Therefore, the Association has initiated an effort with the Fish and Wildlife Minister to meet and discuss the definition of an “inspection” as outlined in the Act. In addition, movement has been made towards an annual meeting between the Association and Fish and Wildlife enforcement.

The Professional Taxidermist Association of Alberta holds Annual General Meetings for all members to hear their concerns and discuss actions that have taken place over the past year.

Annual memberships are available at \$25.00 for an associate membership and \$50.00 for a voting membership. These can be purchased through John Gordon at (403) 558-3615.
