What you need to know about

Added Deer Hunting Opportunities for 2007 Chronic Wasting Disease (CWD) Control Areas

Additional deer hunting opportunities are available to assist in reducing deer populations in areas of known risk of chronic wasting disease:

WMU 234 - All of WMU 234
WMU 150 - only the portion of WMU 150 within range 1 to 3
WMU 151 - only the portion of WMU 151 within range 1 to 3

Licences for resident hunters are available through the under-subscribed licence system. Landowners in the control areas or their immediate family can apply for these licences through the offices of Alberta Sustainable Resource Development - similar to existing landowner licence approvals.

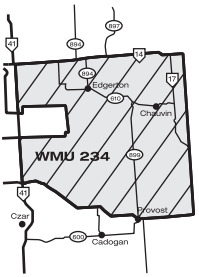
Three tags are issued with each CWD quota licence. The first two tags are valid for 2 antlerless deer (either mule deer or white-tailed deer). The third tag can be used on any deer.

WMU 234 CWD Control Area:

Archery season
Sept. 5 - Oct. 31

Rifle season
Nov. 1 - Dec. 20

Landowner season
Nov. 1 - Jan. 15



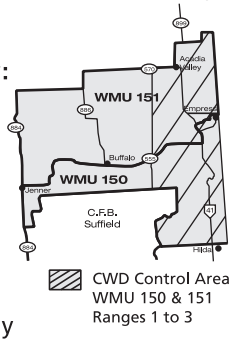
WMU 150 & 151 CWD Control Areas*:

Archery season
Sept. 5 - Oct. 31

Rifle season
Nov. 1 - Dec. 20

Landowner season
Nov. 1 - Jan. 15

* season open
Monday to Saturday



It is a **mandatory requirement** to submit the heads from all deer harvested in the CWD control areas. Antlers and skull plate can be removed before the head is submitted. Hunters will be notified of CWD test results within 6 weeks.

Licences cost $9.00 plus GST.

For more information, see *2007 Alberta Guide to Hunting Regulations* (pages 65 & 66), contact your local Fish and Wildlife office, or visit www.srd.alberta.ca/fishwildlife
