

## Chocolate Cherry Cobbler Cake

- 1 can pie cherries (Dark Cherries are preferred)
- 1 Chocolate cake mix

Mix cake as directed on the box but using the liquid from the cherries as a liquid. Mix in cherries. Bake in 350° F oven. Bake until when knife is inserted into cake it comes out clean.

Other options: This cake can also be baked in a Bundt pan. To do this, mix the ingredients in a separate bowl then pour batter in to Bundt pan. Bake as above, let cake cool slightly prior to trying to get out the pan.
