

Overview

Welcome to the 2010 Outdoor Bound! Mentorship Program
We look forward to having you involved

Mission:

"To create opportunities for youth and adults to participate in a formalized wilderness mentorship program that creates a greater understanding and respect for wildlife and wild places."

Purpose:

- To create opportunities to participate in a formalized mentorship program in the outdoors.
- To teach others to embrace Alberta's Outdoor Heritage through direct mentored experience.
- To provide a safe and controlled training environment for youth and first time hunters.
- To provide a positive and organized method of access for hunters.
- To maximize the harvest results to reduce potential hazards and safety risks in areas of concern.

Receiving the right introduction to hunting ensures a quality experience and the start to a lifetime of enjoyment. Many hunters experience their introduction to hunting from family or friends as a tradition passed down from generation to generation. Hunting is a useful and beneficial wildlife management tool that ensures and maintains the health and abundance of game species and the balance of our natural resources. Our mentorship programs provide a critical link between people, places and opportunity.
